

# Denture Care Centre System

“ Web management systems are the next generation of every system developed today. ”

## Main Features

### Custom Patient Management

Not every single company in today's world works the same. So why do we have to be the same? Our system accomplishes just that, with custom patient management that suits the company special needs and requirement.

### Calendar Style Management

Our innovative calendar style management will help with the efficiency of making appointments, scheduling, and staff availability. Calendar view gives a user an overview of their daily, weekly and monthly schedule to aid in the management of their tasks.

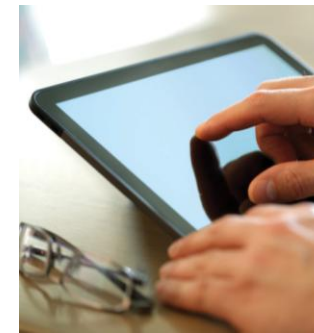

### Specific Report Generation

Report generation is important for company, as this helps them to analyze and assists in decision making, be it important or simply needed. With report generated at any time, this will boost the company productivity and sales.

### Future Flexibility

New clinic branch? New patient status? New patient type? With our system's customizable management system, there is no need to worry should your business expand in the future. Our system comes equip with tools to adapt to organizational changes that may occur.

Advance Innovation while controlling costs

Can your company keep up? The true cost of innovation and its effect on your bottom line

### FLEXIBLE SEARCH

Our system accommodates a comprehensive search that enables users to search for a patient, staff or through dates with at ease.

### DRAG N' DROP MANAGEMENT

Sometimes mistakes happen. With our drag and drop feature that is incorporated into our appointment, schedule and availability, this will help with the efficiency and flexibility in managing and displaying multiple appointments

### AUTO COMPLETE SEARCH

Don't know your patient's last name or first name? With our auto complete search, just a fragment of their name is needed to dynamically find matching patients.

### REPORT PRESENTATION

Sometimes just one type of report is not sufficed; therefore our system collects and displays reporting data in a variety of different formats which can be easily printed or downloaded.

## Features

### DIFFERENT USER PRIVILEGES

Our system has incorporated multiple user types with varying privileges. Thus, creating a shared environment but clearing distinguishing between each user's roles in the company.

### STAFF MANAGEMENT

Need to manage your employees? Our staff management can do just that allowing temporary staff to have their accounts enabled/disabled.

### CUSTOM REMINDER

Need to remind yourself of something regarding a patient or literally anything? Our system accommodates for custom reminders that will remind you of things you may have set weeks in advance.

### HELP AND SUPPORT

In need of help? Our system provides comprehensive user manual that can be accessed anytime and anywhere. It covers every aspect of the system clearly.

### WEB MANAGEMENT

Why having our system sit still in the company? Access at your convenience, our system is available anywhere, anytime there is internet access.
